Colorectal Carcinoma (CRC) 2026
Programmed Death Ligand 1 (PDL1) How to order

Both programmes run under the scientific supervision of the **European Society of Pathology** (www.esp-pathology.org).
The **Colorectal Carcinoma (CRC**) programme focuses on the testing of *KRAS/NRAS/BRAF* mutations.
The **Programmed Death Ligand 1 (PDL1)** programme focuses on the PD-L1 staining of 4 carcinoma types (TNBC, NSCLC, UC, HNSCC).

Key information concerning the CRC programme is available at www.sekk.cz/CRC
Key information concerning the PDL1 programme is available at www.sekk.cz/PDL1

How to order any of the above mentioned programmes

The web application Cibule (www.eqa.cz/cibule) is used to manage participant's registration and orders. Please follow these 2 steps:

Step 1: registration

- Skip this step and go to the **Step 2** if your laboratory is already registered in the Cibule app.
- To register (obtain a user account) in the Cibule app, please select *New participant* in the menu and complete the request for the registration.
- We'll send you access data (credentials) after processing your request.
- After receiving the access data (this will allow you to log in) go to **Step 2**.

Step 2: ordering

- To make an order, please login to the Cibule app.
- After login go to the menu *Orders – Services* (if asked, choose the year 2026) and click the *New request* button. A wizard will be started to guide you through the process of ordering in 5 steps. In step 3 (most important) use the *Change* button near the CRC programme and/or PDL1 programme (in the Pathology section) to order the programme (write number of sample sets you require for each round – usually one set of samples is sufficient).
- Please be advised that the Cibule app is a universal application completely covering the EQA Plan and thus you will see all available EQA programmes, not only CRC and PDL1. Of course you are free to order any other EQA programmes you are interested in.
- We'll process your request (within 1 or 2 working days) and we'll keep you informed and we'll send the invoice to you by e-mail.

Application deadline

You can place the order no later than one month before the start of the round.

Pricing

The annual fee (the final price for 2 rounds including transport of the samples to the participant) is:

- **CRC: 470 EUR**
- **PDL1:** the price depends on the number of sample sets (carcinoma types – see above) ordered by the participant – the minimum annual fee is **230 EUR** (one carcinoma type), the maximum is **560 EUR** (complete set of all 4 carcinoma types)

Contacts

Feel free to contact us at sekk@sekk.cz if you have any questions concerning the **EQA Plan 2026** or the procedure for registration and ordering.

Complete information

You can find complete description of all EQA programmes and related services in the document **EQA Plan 2026**: www.sekk.cz/eqa/2026_plan_EHK_1.pdf
